Dear Marcie,

As a new member, we wanted to say how excited we are to take part in your program. We've heard only good things about 'Let's get going' and are looking forward to participating in your activities.

IMS looks forward to the meetings and discussions you organize, and we are confident, based on what you've accomplished in the past, that this is a very good step for our business to take.

Your business matchmaking approach is a great idea, and certainly one of the best ways to make new contacts.

All the best,

Jean Éthier  
Président
