

February 17, 2006

Dear Marcie,

I am writing today to thank you and let you know how valuable **Let's Get Going** has been for **SimboliQ**

As a custom web solution developer, we rely almost exclusively on word-of-mouth and business referrals to expand our client base. **Let's Get Going** has proven to be both an excellent source of new business and a solid source of qualified referrals. Indeed we have sourced in excess of \$100,000 of new business through your members, and have struck a strategic partnership which lead to the development of a new product offering.

I am impressed with the quality of the members of your group, who have also shown themselves to be a dedicated group focused on building lasting business relationships.

Both the major events and the small group meetings have been very successful and I congratulate you on your efforts to deliver a top-notch experience for every member, regardless of the size or nature of their business.

The additional services you provide to your members and the one-on-one attention to each member's particular needs have been both extremely useful and greatly appreciated.

Your infectious energy and steadfast vision has been an inspiration and I look forward to continuing our and strengthening our relationship.

Yours truly,

SimboliQ Technologies
