

## Technology Change Management Services

Dear Marcie,

I'd like to take this opportunity to thank you for your devotion and personal involvement in your Corporate Matchmaking division of Lets Get Going.

Being in the computer service and end of life management business as well as servicing the public via our Microsys computer retail store in Dorval, your business model through personal one on one meetings, group meetings and referrals has helped grow our organization tremendously.

We have seen increased retail sales as well as signed end user service agreements that amount to several tens of thousands in additional revenue.

We have seen your company grow over the years and stand by your values and business ethics.

Your multiple divisions allow new members no matter whether they are big or small to fit right in and immediately begin connecting with other members and industries.

When you are out getting new business, members benefit from your dynamic personality and leadership skills and as I have always said, you are the equivalent of having a business development executive on the payroll except that it doesn't cost us 80,000.00\$ per year !

We would not hesitate to recommend your services to anyone who is looking to increase their market share and their business contacts.

Best Regards,

A handwritten signature in black ink, appearing to read "Bruce Hartley".
