Dear Marcie:

I must say that being part of the dynamic group that you have assembled is very refreshing and rewarding as well. Your dedication to making Let's get Going a success is clearly having a very positive effect as it's membership continues to grow. I thank you for having been able to meet people who have become my clients whom I otherwise may not have come into contact with.

Let's Get Going is an invaluable resource tool for those who are serious about increasing their existing clientele and at the same time are committed to helping out their fellow members. It's also a great way to meet established members of the business community of Greater Montreal.

Yours truly,

JOEL WAXMAN
